Queued for next session (after today's close → next open)

● NO TRADES — hold current book

- Buys — No risk budget to add — the book is 90% invested versus the volatility-scaled exposure cap of 74% (base 90% × 0.82x governor). Persistence candidate(s) AMAT are blocked by the cap.
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-off with momentum WORKING: the Top-10 minus Bottom-10 spread was +6.07% (universe avg -1.17%) — higher-scored names out-performed the laggards.
- Hardest hit among the leaders: RBLX -2.63%, SOFI -1.47%, VST -0.09%, KLAC +0.46%.
- The volatility governor is ENGAGED: forecast vol 42.74% is above the 35.00% target, so gross exposure is scaled to 0.82x (82% of budget). New buys are automatically sized down — the correct hands-off de-risk response.
- Held book returned +1.04% on the session; biggest detractor SEDG (-3.97%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: SEDG (0.38), DDOG (0.39), CRWD (0.55), PANW (0.61) — the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

- BUY candidates (clear the >0.90 entry score, not held): HOOD (0.97), AMAT (0.94). These trigger only on the 3rd consecutive day above the bar; max 2 new/day. Sized ~7.0% of book (per-name cap × 0.82x governor).
- WATCHLIST — climbing fast but still below the entry bar: VRT (▲41, 0.68), AVGO (▲33, 0.52), SE (▲29, 0.74), TSM (▲18, 0.67). No action; revisit if they push above the gate.
- EXITS — let the engine fire stops on its own at the open; do not pre-empt score-gated holds that are still trending. No discretionary selling.
- NET STANCE: constructive. Governor near full budget and the spread is non-negative — normal sizing on any triggered entries.

Signal strength (ranking-close → latest)
