● NO TRADES — hold current book

- Buys — No buy: no unheld name has held score >0.90 for 3 consecutive days (persistence rule); standard momentum adds did not clear sizing/cash.
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-on with momentum WORKING: the Top-10 minus Bottom-10 spread was +0.14% (universe avg +1.66%) — higher-scored names out-performed the laggards.
- Hardest hit among the leaders: OXY -2.71%, AMD -1.07%, MU -1.04%, BA +0.16%.
- The volatility governor is neutral: forecast vol — is at or below the 35.00% target, so exposure runs at the full base budget (1.00×).
- Held book returned -0.11% on the session; biggest detractor MU (-1.04%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: TSM (0.85), MU (0.87) — the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

- BUY candidates (clear the >0.90 entry score, not held): ASML (0.95), LRCX (0.94). These trigger only on the 3rd consecutive day above the bar; max 2 new/day. Sized ~8.5% of book (per-name cap × 1.00× governor).
- WATCHLIST — climbing fast but still below the entry bar: OKTA (▲51, 0.61), MELI (▲47, 0.78), COIN (▲41, 0.64), HOOD (▲34, 0.47). No action; revisit if they push above the gate.
- EXITS — let the engine fire stops on its own at the open; do not pre-empt score-gated holds that are still trending. No discretionary selling.
- NET STANCE: constructive. Governor near full budget and the spread is non-negative — normal sizing on any triggered entries.

- Buys — No risk budget to add — the book is 95% invested versus the volatility-scaled exposure cap of 90% (base 90% × 1.00× governor). No persistence-buy candidate either (no unheld name has held score >0.90 for 3 consecutive days).
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-on and momentum INVERTED: the Top-10 minus Bottom-10 spread was -1.68%— higher-scored names sold off harder than the laggards (universe avg +0.71%). That is the momentum-reversal-in-a-selloff pattern, not a normal trend session.
- Hardest hit among the leaders: RBLX -2.06%, VRT -1.18%, SMCI -0.60%, CSCO -0.56%.
- The volatility governor is neutral: forecast vol — is at or below the 35.00% target, so exposure runs at the full base budget (1.00×).
- Held book returned -0.17% on the session; biggest detractor INTC (-6.19%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: INTC (0.42), LRCX (0.42), MU (0.45), TXN (0.55)— the engine will exit these automatically if they keep sliding.

Market commentary

- Session was risk-off with momentum WORKING: the Top-10 minus Bottom-10 spread was +3.02% (universe avg -0.99%) — higher-scored names out-performed the laggards.
- Hardest hit among the leaders: SEDG -12.38%, VRT -1.67%, VST -1.66%, AXON -1.42%.
- The volatility governor is neutral: forecast vol 31.35% is at or below the 35.00% target, so exposure runs at the full base budget (1.00×).
- Held book returned -0.44% on the session; biggest detractor ON (-2.46%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: MU (0.39), LRCX (0.44), TXN (0.49), ASML (0.51)— the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

● NO TRADES — hold current book

- Buys — No risk budget to add — the book is 98% invested versus the volatility-scaled exposure cap of 90% (base 90% × 1.00× governor). No persistence-buy candidate either (no unheld name has held score >0.90 for 3 consecutive days).
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-on with momentum WORKING: the Top-10 minus Bottom-10 spread was +1.51% (universe avg +0.70%) — higher-scored names out-performed the laggards.
- Hardest hit among the leaders: DELL -2.26%, SMC -1.10%, MRVL -0.86%, OXY +0.84%.
- The volatility governor is neutral: forecast vol 33.52% is at or below the 35.00% target, so exposure runs at the full base budget (1.00×).
- Held book returned +1.54% on the session; biggest detractor DELL (-2.26%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: TXN (0.22), ADI (0.29), ON (0.43), TSM (0.54)—the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

- BUY candidates (clear the >0.90 entry score, not held): PLUG (0.92), COIN (0.92). These trigger only on the 3rd consecutive day above the bar; max 2 new/day. Sized ~8.5% of book (per-name cap × 1.00× governor).
- WATCHLIST — climbing fast but still below the entry bar: NOW (▲32, 0.66), SNOW (▲29, 0.47), IBM (▲27, 0.68), ZS (▲27, 0.37). No action; revisit if they push above the gate.
- EXITS — let the engine fire stops on its own at the open; do not pre-empt score-gated holds that are still trending. No discretionary selling.
- NET STANCE: constructive. Governor near full budget and the spread is non-negative— normal sizing on any triggered entries.

Market commentary

- Session was risk-on and momentum INVERTED: the Top-10 minus Bottom-10 spread was -0.05%—higher-scored names sold off harder than the laggards (universe avg +0.23%). That is the momentum-reversal-in-a-selloff pattern, not a normal trend session.
- Hardest hit among the leaders: LLY -1.98%, PFE -0.81%, GOOGL -0.54%, MELI -0.20%.
- The volatility governor is neutral: forecast vol 34.06% is at or below the 35.00% target, so exposure runs at the full base budget (1.00×).
- Held book returned -0.42% on the session; biggest detractor ASML (-3.13%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: ADI (0.47), ASML (0.50), DELL (0.55), TSM (0.57)—the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

- BUY candidates (clear the >0.90 entry score, not held): INTC (0.96), PLUG (0.92), AMD (0.92), MRVL (0.92). These trigger only on the 3rd consecutive day above the bar; max 2 new/day. Sized ~8.5% of book (per-name cap × 1.00× governor).
- WATCHLIST — climbing fast but still below the entry bar: ANET (▲41, 0.55), VRT (▲36, 0.64), UBER (▲30, 0.52), DASH (▲30, 0.52). No action; revisit if they push above the gate.
- EXITS — let the engine fire stops on its own at the open; do not pre-empt score-gated holds that are still trending. No discretionary selling.
- NET STANCE: constructive. Governor near full budget and the spread is non-negative— normal sizing on any triggered entries.

- Buys — No risk budget to add — the book is 91% invested versus the volatility-scaled exposure cap of 90% (base 90% × 1.00× governor). No persistence-buy candidate either (no unheld name has held score >0.90 for 3 consecutive days).
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-off and momentum INVERTED: the Top-10 minus Bottom-10 spread was -1.60%— higher-scored names sold off harder than the laggards (universe avg -0.39%). That is the momentum-reversal-in-a-selloff pattern, not a normal trend session.
- Hardest hit among the leaders: HOOD -5.31%, PLUG -4.35%, DASH -3.87%, ADI -1.52%.
- The volatility governor is neutral: forecast vol 33.30% is at or below the 35.00% target, so exposure runs at the full base budget (1.00×).
- Held book returned +0.40% on the session; biggest detractor LRCX (-1.82%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: ASML (0.23), TSM (0.31), MU (0.33), LRCX (0.36)— the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

- No names clear the persistence-entry score bar — no new buys set up. Hold and let the book ride.
- WATCHLIST — climbing fast but still below the entry bar: CRWD (▲42, 0.69), FTNT (▲40, 0.48), ZS (▲37, 0.51), PANW (▲32, 0.47). No action; revisit if they push above the gate.
- EXITS — let the engine fire stops on its own at the open; do not pre-empt score-gated holds that are still trending. No discretionary selling.
- NET STANCE: constructive. Governor near full budget and the spread is non-negative— normal sizing on any triggered entries.

● NO TRADES — hold current book

- Buys — No risk budget to add — the book is 94% invested versus the volatility-scaled exposure cap of 90% (base 90% × 1.00× governor). Persistence candidate(s) QCOM are blocked by the cap.
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-on and momentum INVERTED: the Top-10 minus Bottom-10 spread was -6.17%— higher-scored names sold off harder than the laggards (universe avg +0.91%). That is the momentum-reversal-in-a-selloff pattern, not a normal trend session.
- Hardest hit among the leaders: ARM -10.11%, ON -4.88%, LRCX -3.58%, DELL -3.57%.
- The volatility governor is neutral: forecast vol 34.71% is at or below the 35.00% target, so exposure runs at the full base budget (1.00×).
- Held book returned -4.17% on the session; biggest detractor ARM (-10.11%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: KLAC (0.35), MRVL (0.40), AMAT (0.41), TSM (0.48) — the engine will exit these automatically if they keep sliding.

- Session was risk-on with momentum WORKING: the Top-10 minus Bottom-10 spread was +3.23% (universe avg +1.72%) — higher-scored names out-performed the laggards.
- Hardest hit among the leaders: SEDG -1.67%, IBM +0.34%, DDOG +1.96%, CRWD +2.35%.
- The volatility governor is ENGAGED: forecast vol 37.12% is above the 35.00% target, so gross exposure is scaled to 0.94× (94% of budget). New buys are automatically sized down— the correct hands-off de-risk response.
- Held book returned +4.64% on the session; biggest detractor SEDG (-1.67%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: SEDG (0.62), INTC (0.70), MRVL (0.73), DDOG (0.74) — the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

- No names clear the persistence-entry score bar — no new buys set up. Hold and let the book ride.
- WATCHLIST — climbing fast but still below the entry bar: MELI (▲46, 0.59), DASH (▲42, 0.56), RBLX (▲38, 0.67), SHOP (▲37, 0.52). No action; revisit if they push above the gate.
- EXITS — let the engine fire stops on its own at the open; do not pre-empt score-gated holds that are still trending. No discretionary selling.
- NET STANCE: constructive. Governor near full budget and the spread is non-negative— normal sizing on any triggered entries.

Market commentary

- Session was risk-off with momentum WORKING: the Top-10 minus Bottom-10 spread was +0.61% (universe avg -2.48%) — higher-scored names out-performed the laggards.
- Hardest hit among the leaders: MRVL -5.35%, TSM -4.48%, GE -3.55%, ASML -2.45%.
- The volatility governor is ENGAGED: forecast vol 41.90% is above the 35.00% target, so gross exposure is scaled to 0.84× (84% of budget). New buys are automatically sized down— the correct hands-off de-risk response.
- Held book returned -2.53% on the session; biggest detractor QCOM (-6.92%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: QCOM (0.19), SEDG (0.41), ARM (0.43), INTC (0.45) — the engine will exit these automatically if they keep sliding.

● NO TRADES — hold current book

- Buys — No risk budget to add — the book is 90% invested versus the volatility-scaled exposure cap of 74% (base 90% × 0.82× governor). No persistence-buy candidate either (no unheld name has held score >0.90 for 3 consecutive days).
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-on with momentum WORKING: the Top-10 minus Bottom-10 spread was +0.78% (universe avg +2.65%) — higher-scored names out-performed the laggards.
- Hardest hit among the leaders: SPOT -3.40%, PINS -1.24%, SNOW +0.20%, BAC +1.14%.
- The volatility governor is ENGAGED: forecast vol 42.70% is above the 35.00% target, so gross exposure is scaled to 0.82× (82% of budget). New buys are automatically sized down— the correct hands-off de-risk response.
- Held book returned +7.12% on the session; biggest detractor DDOG (+2.90%). Open positions remain net profitable on entry-to-date P&L.

● NO TRADES — hold current book

- Buys — No risk budget to add — the book is 90% invested versus the volatility-scaled exposure cap of 73% (base 90% × 0.82× governor). No persistence-buy candidate either (no unheld name has held score >0.90 for 3 consecutive days).
- Sells — No exit triggered — stops are score-gated (fire only below 0.90 composite) and none qualify; max-hold suppressed until score <0.80; score-decay sell disabled; no rotation funding required.

Market commentary

- Session was risk-off and momentum INVERTED: the Top-10 minus Bottom-10 spread was -4.03%— higher-scored names sold off harder than the laggards (universe avg -1.61%). That is the momentum-reversal-in-a-selloff pattern, not a normal trend session.
- Hardest hit among the leaders: MRVL -9.78%, INTC -8.45%, KLAC -7.44%, AMD -7.30%.
- The volatility governor is ENGAGED: forecast vol 42.90% is above the 35.00% target, so gross exposure is scaled to 0.82× (82% of budget). New buys are automatically sized down— the correct hands-off de-risk response.
- Held book returned -3.76% on the session; biggest detractor MRVL (-9.78%). Open positions remain net profitable on entry-to-date P&L.
- Stop-losses are armed (score below 0.90) on: SEDG (0.32), DDOG (0.53), CRWD (0.57), QCOM (0.60) — the engine will exit these automatically if they keep sliding.

Recommendations — tonight → next open

- BUY candidates (clear the >0.90 entry score, not held): AMAT (0.91), HOOD (0.90). These trigger only on the 3rd consecutive day above the bar; max 2 new/day. Sized ~6.9% of book (per-name cap × 0.82× governor).
- WATCHLIST — climbing fast but still below the entry bar: JPM (▲22, 0.73), AAPL (▲18, 0.50), WDAY (▲17, 0.34), PYPL (▲16, 0.62). No action; revisit if they push above the gate.
- EXITS — let the engine fire stops on its own at the open; do not pre-empt score-gated holds that are still trending. No discretionary selling.
- NET STANCE: defensive. Governor de-risked and the momentum spread is negative— this is a de-risk session, not one to add aggressively. Expect at most 1-2 small adds and possibly 1-2 stop-driven exits next open.
